Creed of the Loyal Utahn

(GILES.)

I believe that Utah people should wear Utah clothes, eat Utah foods and use Utah manufactured products.

I believe in making my money help my neighbor as well as myself.

I believe there's very little that I need to eat, drink or wear that isn't made in Utah.

I believe that after I've found that the article I want isn't made in Utah it's time to begin looking elsewhere—not before.

I believe that if the article I want isn't produced in Utah I should at least try to buy it from a Utah dealer.

I believe that Utah grains, Utah fruits and Utah vegetables have produced the energy that has always been characteristic of Utah's sons and daughters.

I believe that the united co-operation of Utah's citizens will insure Utah's prosperity.

I will never forget that when I buy anything that isn't produced in Utah I make Utah poorer.

I will let no outside flattery distract me from these precepts but remain firmly convinced, whatever others may say, that Utah products are the only ones worthy of Utah citizens.

FOR CITY AUDITOR

W. D. VAN DYKE, JR.

W. D. Van Dyke, Jr., the present city auditor, goes before the voters of Ogden for re-election to that office on the basis of his service to the city during the present administration and valuable experience he has gained thereby.

Mr. Van Dyke started his career as a telegraph operator at the age of 17 years and had 10 years' experience in the claims and auditing department of the railroad. This is one measure of his success in keeping the city's reports in such excellent shape.

Under the commission form of government the office of auditor is of equal importance with that of mayor and commissioner. In fact in some respects the responsibility is even greater, for the auditor is held responsible for all expenditures made by the city.

The friends of Mr. Van Dyke feel that his record during the past two years is sufficient evidence of his ability and that it is due to him to continue his services for another term.

Mr. Van Dyke has given his time unsparingly to the duties of his office, and, if re-elected, will continue the methods which have won him commendation for efficiency.

CHICAGO GRAIN

Chicago, Oct. 18.—After a long continued decline, which has amounted to eleven cents a bushel, wheat today turned strong, with shorts covering freely. Firmer cables created a better investment demand, that was increased as a result of Wall street advices favorable to the bull side. There were signs also that millers were beginning to take wheat on a larger scale. The market opened 1-4 to 1-2@5.5c higher and later made some additional gain.

A rapid descent in corn took place because of chickening of demand. The close was weak at 1-8 to 1-4@3-8c net decline.
